

## Mobile Cancer Information Center Due Here Tomorrow

A rolling exhibit of life-saving information will arrive in the South Bay area on Monday sponsored by the American Cancer Society and manned by local volunteers.

Volunteers hosting for this cruiser are the Manhattan Beach Welcome Wagon Club while the bus is at South Bay Shopping Center from Monday to Saturday; the Lawndale Monday Eve's, CFWC, while the bus is on the El Camino campus Monday and Tuesday, April 10th and 11th; and the Sears Store, Del Amo Center, Tuesday, April 12th through Saturday, April 15th will be hosted by the South Bay Sand-

pipers Club, Gamma Psi Chapter of Epsilon Alpha Sorority will act as relief hostesses when needed.

**THE EXHIBIT**, featuring mock-ups and graphic materials specifically built into a 35 foot bus, is free to the public. Literature of various types will be available at no charge.

The mobile unit represents the combined efforts of local researchers, sociologists and educators to inform residents of Los Angeles County how best to protect themselves against cancer.

Exhibits prepared by medical schools show methods by

which scientists are attempting to learn more about the nature and causes of cancer.

**AIR POLLUTION** and its relation to lung cancer is the subject of a casual presentation prepared by the University of Southern California. UCLA's display shows the manner in which laboratory mice have been immunized to resist certain types of cancer, and the College of Medical Evangelists' entry depicts differences between healthy cells and abnormal cancer cells.

Other exhibits portray different phases of the American Cancer Society's three-fold pro-

gram, including how it serves cancer patients.

**FIVE MONTHS** in preparation, this educational project was made possible entirely through donated materials and labor.

Contributors to the Cancer Cruiser include Western Greyhound Lines, Richfield Oil Co., Chauffeurs Union Local 640, Carpenters Union Local 1913, Mullen Lumber Co., Wopschall Painting Contractors, Lloyd's Trailer Refinishing, Leslie Marzolf, Voquette and Vaughn, White Front Stores, and Red White and Blue Print Co.

## Garden Checklist

1. Water newly planted natives, such as Ceanothus, occasionally to help them get established. After the first of the year they'll thrive on drought.
2. Plant Dahlias for summer color. The dwarfs are available as bedding plants.
3. Mulch around Roses with steer manure. Mulch Camellias and Rhododendrons with peat moss or planting mix, and keep it moist.
4. Pinch back Fuchsias to make the plants bushy and concentrate the bloom.
5. Try a few potsful of Pelargoniums on stairs, decks and terraces.

FA 8-4000

**MORE SCHOLARSHIPS . . .** Manny Borun (left), vice president of Thrifty Drug Stores, presents check covering three full scholarships to Dr. Alvah G. Hall, dean of the School of Pharmacy, University of Southern California. Presentation marked the seventh consecutive year Thrifty has awarded the scholarships. Dr. Hall will direct the administration of the scholarships to deserving pharmacy students for the 1961-62 academic year.

## Local Builder, Gas Co. Combine To Construct Model for Show

A new concept of energy utilization in the home is fast becoming a reality at the Memorial Coliseum Sports Arena, where construction is well under way on history's first "Balanced Power" model home for the 1961 Home Show.

Selected as a featured exhibit of this year's Home Show, running May 25 through June 4, this first "Balanced Power" home is being built by the R. A. Watt Construction Co., it was announced this week by G. M. Babbe of the Southern California Gas Co.

A Sunray Estates Home, the model is designed to allow each household job to be done by the power source that can do it most efficiently, most conveniently, and at lowest cost, Babbe said.

"IN THE SUNRAY house,"

Babbe explained, "modern natural gas equipment will handle the household jobs it can do with the most ease, speed and economy, such as cooking, water heating, heating and clothes drying, while electric facilities will be provided for lighting, radio and television, and other electric motors and small plug-in appliances.

The Sunray Home was designed by W. A. Pollack, AIBD, and offers the latest home-building ideas in a California rustic architectural theme. It will include four bedrooms, two baths, family room, automatic all-gas built-in kitchen, living room and complete utility area. Interior decoration in an American provincial motif will be provided by Craftsman Interiors of Inglewood.

PLANNED IN a "zone" design, the 1,471 sq. ft. house has three distinct areas—utility, living and sleeping. It features a large entryway which provides a foyer before entering the living areas. Also, outdoor living areas are easily accessible from both family and living rooms.

The Sunray "Balanced Power" home will be located at the west end of the Sport Arena on the Santa Barbara Street side.

Army PFC Richard L. Smart 19, son of Mr. and Mrs. Harold L. Smart, 1422 W. 216th St., completed the general supply specialist course at The Quartermaster School, Fort Lee, Va., March 17.

Smart was trained to perform general unit supply duties, to serve as unit armorer, and to assist in supply and logistic operations.

He entered the Army in September 1960 and received basic training at Fort Ord. Smart attended Narbonne High School, Harbor City.

## Shell Awarded 1961 Honors by Science Faculty

The 1961 business-industry award of the National Science Teachers' Assn. was presented to Shell Companies Foundation, Inc., in recognition of two programs aimed at strengthening high school math and science courses.

The award was made in honor of the Shell Merit Fellowship program, under which more than 550 high school science and math teachers have attended special summer seminars since 1958, 54 from California, and for the Shell Merit Scholarship program.

Under the scholarship program, 100 high school students planning careers as teachers of high school science and math receive college scholarships.

THE AWARD was accepted by Monroe E. Spaght, president of the Foundation and of Shell Oil Co., during the Business-Industry education luncheon at the Sherman Hotel in Chicago.

He said the winning programs were motivated by the Foundation's concern for the quality of the nation's scientific and technical manpower and by the conviction that the best way of insuring quality for the future is to help the schools insure quality of instruction now.

The Business-Industry section of the National Science Teachers' Assn. consists of industrial leaders who joined together several years ago in order to provide increasing business and industry support for science education.

In addition to the programs honored today, the Shell Foundation supports other education programs. Its aid-to-education budget for 1961 exceeds \$1 million.

# "FUNNY THING HAPPENED... on the way to Glendale Federal today..."

Left home with a busy schedule of things to do ... first on the list: drop by Glendale Federal to add to the family savings. Convenient ... easy ... Love that Glendale Federal ... so does husband Steve. On way, mail letter to mother ...

Ran into neighbor Don at corner mailbox ... he's the neighborhood Little League coach. We have a lot in common ... I wasn't surprised to learn that his family saves at Glendale Federal ... he has trust accounts there, too. Something I didn't know.

*Also family savings in bank of Glendale*

Coffee with Beverly to plan our Square Dance Club benefit hoodown. Told Beverly about Don and Glendale. Beverly told me about Glendale, too. She's the club treasurer ... and our club account has always been at Glendale Federal. No wonder our treasury grows. Smart gal, Bev.

Smarter, even, than I thought. Her new nursery is divine! ... mostly white and print, so that both pink and blue will look all right. She and Allan built the new nursery with a Home Improvement Loan from -- guess who: Glendale Federal! Was I surprised? Well ... not really.

Lunch with husband Steve and Steve's Dear Dad. Dad's golf is improving. Dad had to leave early to make a date with (here we go again!) Glendale Federal. He and most of his associates have some of their Investment Funds at Glendale Federal. Isn't that impressive ...? Steve and I exchanged winks.

Dinner (my new veal casserole that Steve loves) at home, with friends. Reviewed day with Steve. We decided that we're not the only ones. EVERYBODY LOVES GLENDALE FEDERAL. Didn't dare tell Steve that I didn't make it to Glendale Federal. Tomorrow. First thing! (Veal casserole a big success!)
